AZPR uses a combination of brute force and dictionary attacks. We also used Dictionary Attack and brute force attack using 3 different attack techniques. Advanced ZIP Password Recovery (AZPR) uses a few different brute force and dictionary attack methods, as well as hybrid attacks using methods similar to those used in Bruteforce (wordlist and Dictionay Attack) with the use of the dictionary to narrow down the files to be tested. Advanced ZIP Password Recovery (AZPR) has been successfully used to recover passwords in a few test cases, and it is used daily in the live environment to recover passwords.
