When the people realized that Bose were great, they decided to steal the good audio technology. So, they took a deal with Bose. They gave Bose a ton of money. Bose were also very happy. There were many problems between the mother company and the home company Bose. There were many problems. The story continues! After Bose got the money from the mother company, they took the money and placed it in their secret bank. It was in that time that Bose had a workshop to manufacture their devices. They started to put their devices. In that time, the family of Bose tried to make as many devices as possible. They were very happy. One day, a man came to Bose and said: "Listen Bose, all your devices are good. But you know, people are not using them as much as you think. It is a bit silly that the people will listen to the speaker, but they don't listen to the radio. You should come up with a good idea and solve this problem." Bose thought that the man was right. He wanted to make a better thing. The man suggested them to manufacture a device with a speaker and a radio. This device was named as a radio. Bose were also happy. They gave this device to people and asked them to listen to the radio. This is the beginning of the history of radio. People didn't like the radio. They didn't like it. They didn't like it. So, they didn't listen to it. Because they didn't like it, they asked Bose to make another good radio. Bose were angry that the people didn't listen to the radio. They got angry. They got angry. But Bose were happy that the people were buying the good devices. That was a good thing. Because they bought the good products, Bose started to make more devices. Bose were very happy. The mother company realized the error they had made. They realized what they had done. They had given Bose a lot of money. Bose were happy that they were given a lot of money. They had to use that money to create more devices. The company started to sell its audio devices. They weren't very good. So, they were not very good. The audio device they made were for 90% of the people. Only 10% of the people were using their audio devices. The people had to like it. 82157476af
